While some of the connections are still somewhat traceable, people appear with no antecedents and there are choices for others. The period after 1715 is more confused yet. During the 80's and 90's above Nathaniel, Berkeley and Samuel were all living in Cirencester.

Edward and Margerie, who lived at one time at Winstone had 3 sons, Richard, Thomas and William. In Warminster in 1665 John and Edward Eacot are householders. Whether, brothers or father and son it could be speculated that Edward is the grand child or gg child of Edward and Margerie there being no others known by the name.
